

Digital platform for maritime shipping

Live map, vessel and owner data, cargo and tonnage, crewing and an AI assistant in one place.

109,000+

vessels with an AIS signal per day

15,234

ports

8,222

shipowners

Cargo, vessel and crew: two platforms, one ecosystem

rynda.io

Cargo, chartering and broker workflows. Map, AIS, vessel and company registries. Tools for everyone in the shipment.

crewing.rynda.io

Crew recruitment and maritime careers. Documents, contracts and rotations. Shipowners, agencies and seafarers.

5,000+

users of rynda.io and Rynda Crewing

20+ yrs

of team maritime experience

Apr 2025

platform launch

A Telegram bot and support connect the platform services. Users as of Oct 20, 2026, deduplicated, internal accounts excluded.

MAP AND DATA

Fleet on a live map

109,000+

vessels with an AIS signal per day

14.4M

port calls in history

AIS and My Fleet

Positions and voyage history. Search by IMO, MMSI and name.

Vessel and shipowner profiles

Owner and manager, sanctions, inspections and history.

Port pages

Vessels in port and inbound, port call history, depths.

Map layers

Weather, ice, navigational warnings, ECA / SECA zones.

Vessels with an AIS signal as of Oct 19, 2026. 14.4M port calls and 730M+ stored AIS events as of Oct 7, 2026.

Your vessels under control: table, alerts, reports

13 alert types

Arrival and departure, ETA shift, AIS loss, zone entry. Via Telegram, email and in your account.

All vessels in one table

Status, speed, destination, ETA, draught.

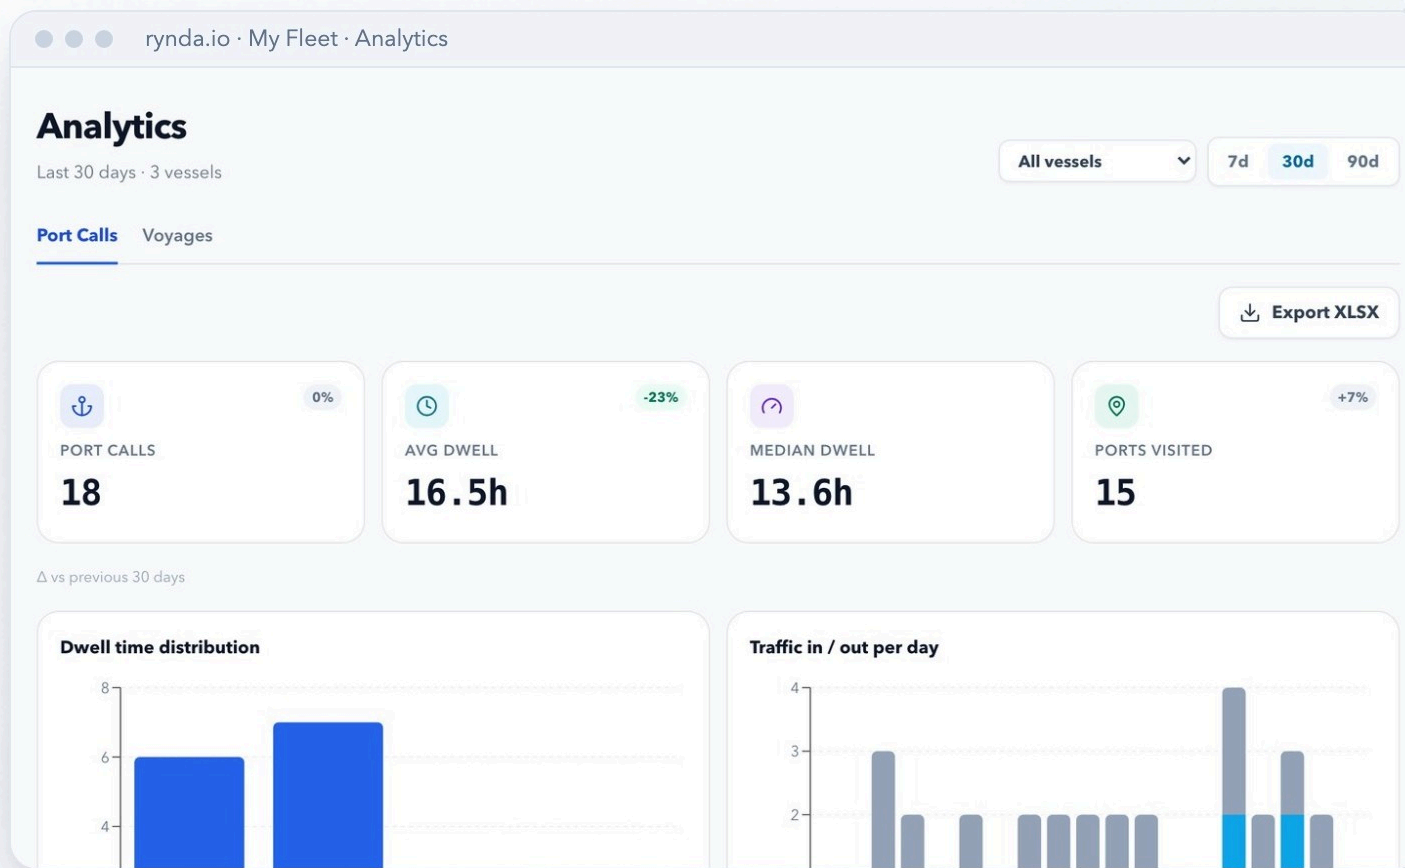

Analytics and Excel

Port calls, stays and voyages.

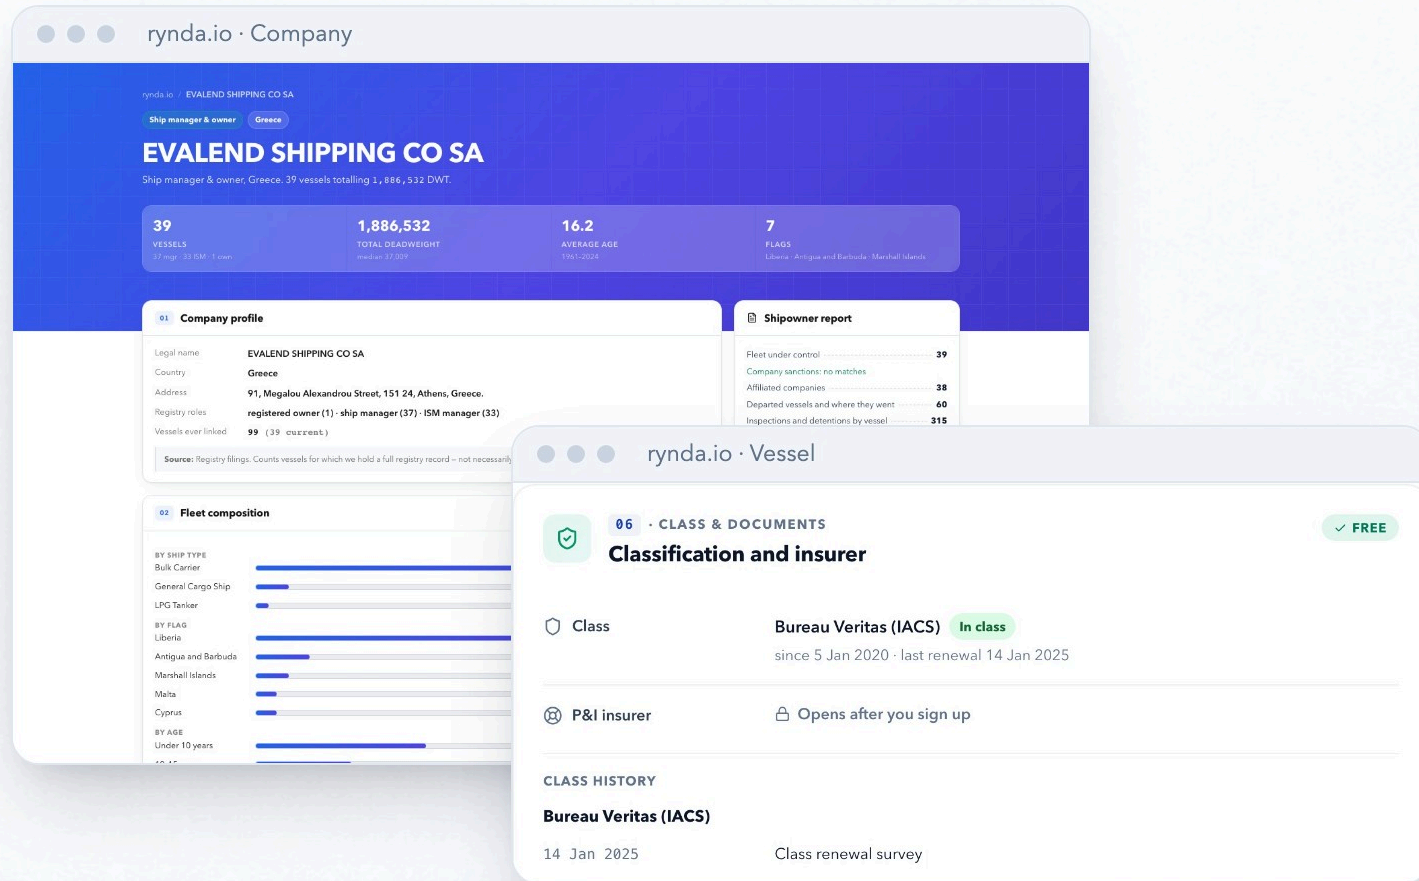

Teamwork

Seats for colleagues and custom vessel lists.

Who owns the vessel and is it safe to work with

Sanctions lists

Screening of the vessel and its ownership chain.

Port State Control

PSC inspection and detention history.

Class and insurer

Classification society, class history, P&I.

One-document dossier

Owners, sanctions, inspections and history in a PDF.

169,800+ vessels and 81,200+ companies in the registry (Oct 7, 2026).

What is happening in port right now

In port and inbound

Vessels at berth, at anchor and heading to port.

Port call history

Who called, when they arrived and how long they stayed.

Port analytics

Daily calls, time in port by vessel type.

Port reference

Depths, anchorages, services.

rynda.io · Port

02 · VESSELS CURRENTLY IN PORT (368) 10s ago

Real-time AIS observations
General Cargo 8 · Tanker 4 · Passenger 2 · +1 more

Vessels moored or at anchor in the port – last AIS position within the past 2 days.

VESSEL	TYPE	TONNAGE	DRAUGHT	TIME IN PORT

Cargo and chartering

Cargo and vessel marketplace

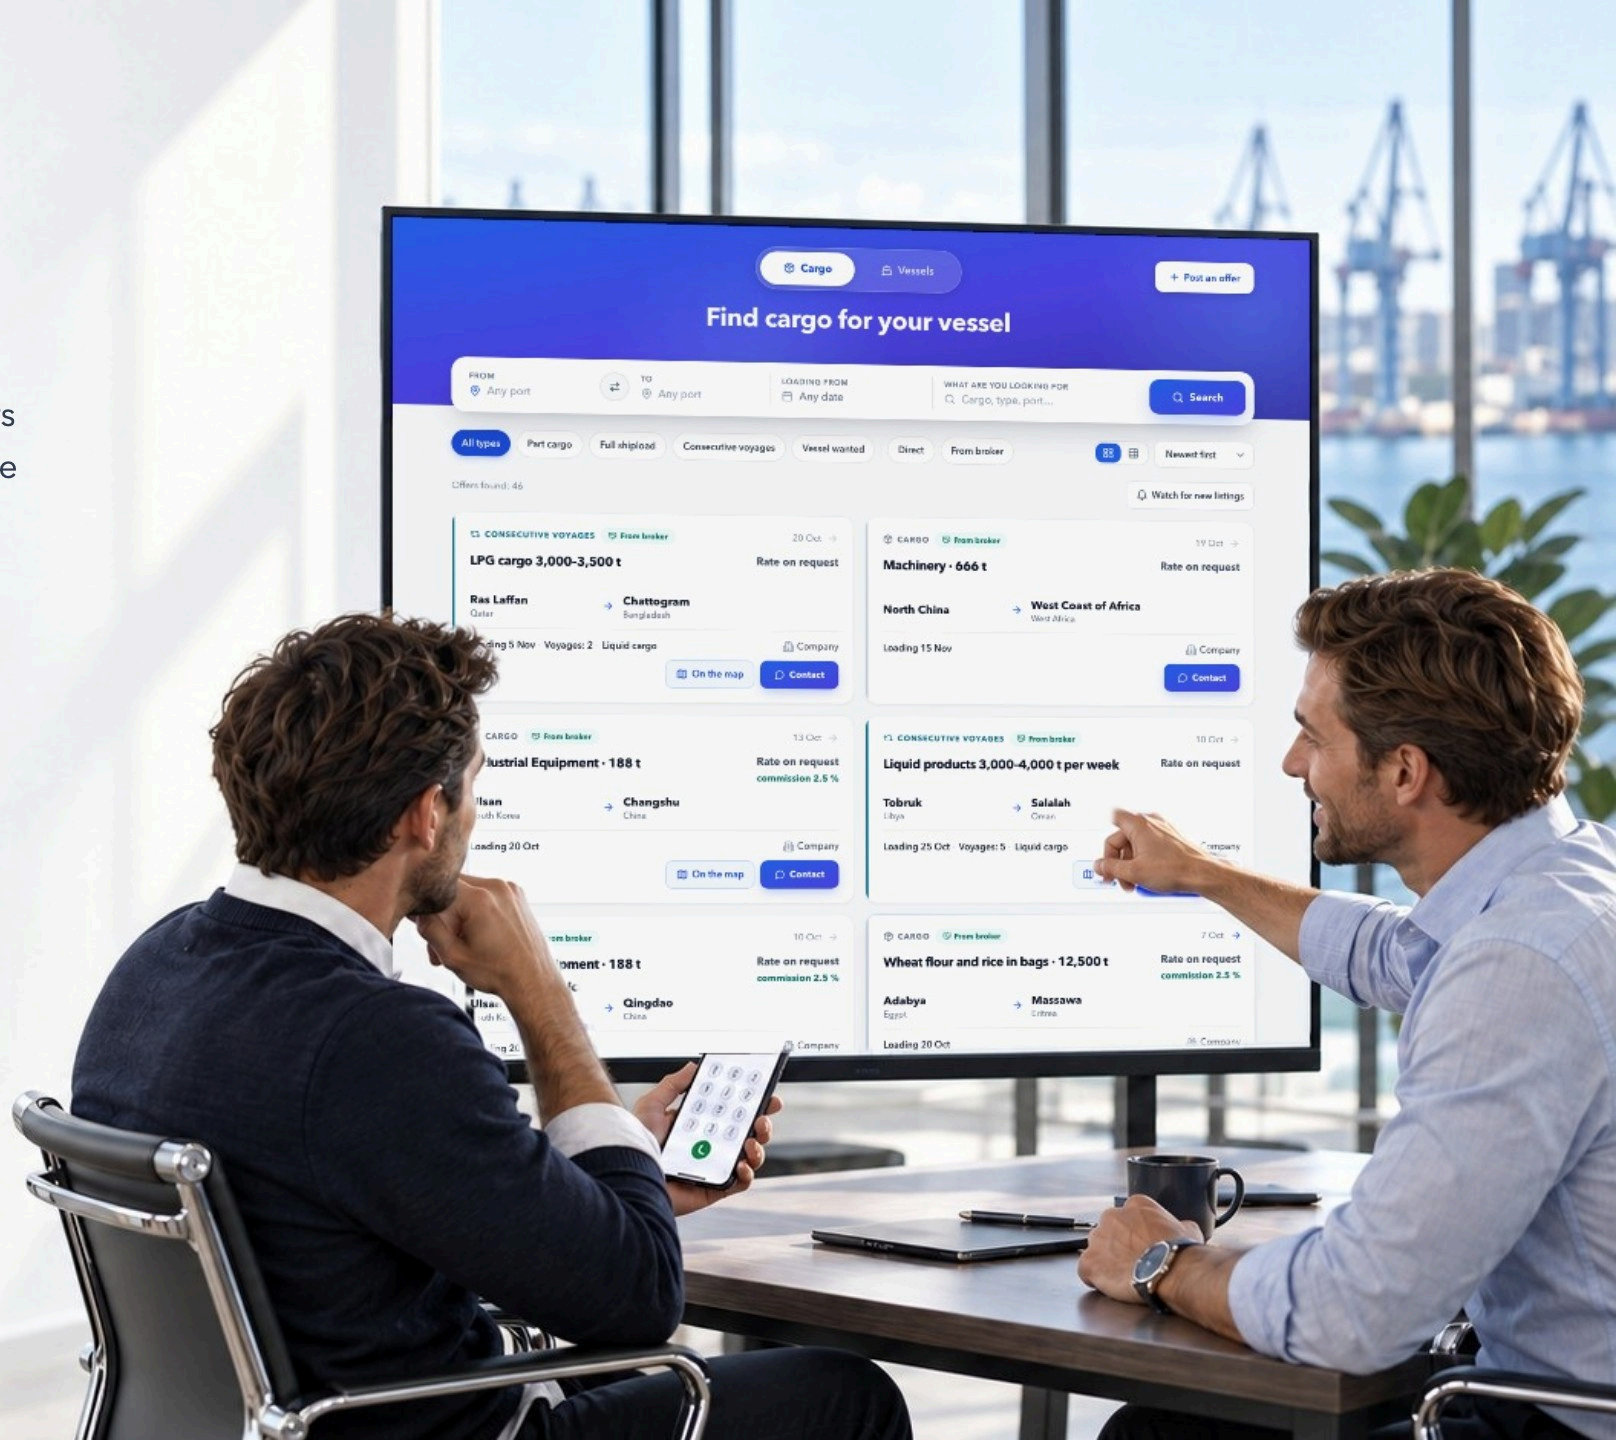

Cargo and open tonnage from shipowners, charterers and brokers. Part cargo and full load, time and voyage charter.

List in a minute with AI

Paste an offer or an email, and AI fills in the cargo or vessel listing for you.

Chat

Message the counterparty directly. Conversation and deal documents in one place.

FOR BROKERS AND FORWARDERS

No forms to fill in broker@rynda.io

1

Add the address to your mailing list

Send your offers as usual, and a copy reaches us.

2

AI reads the email

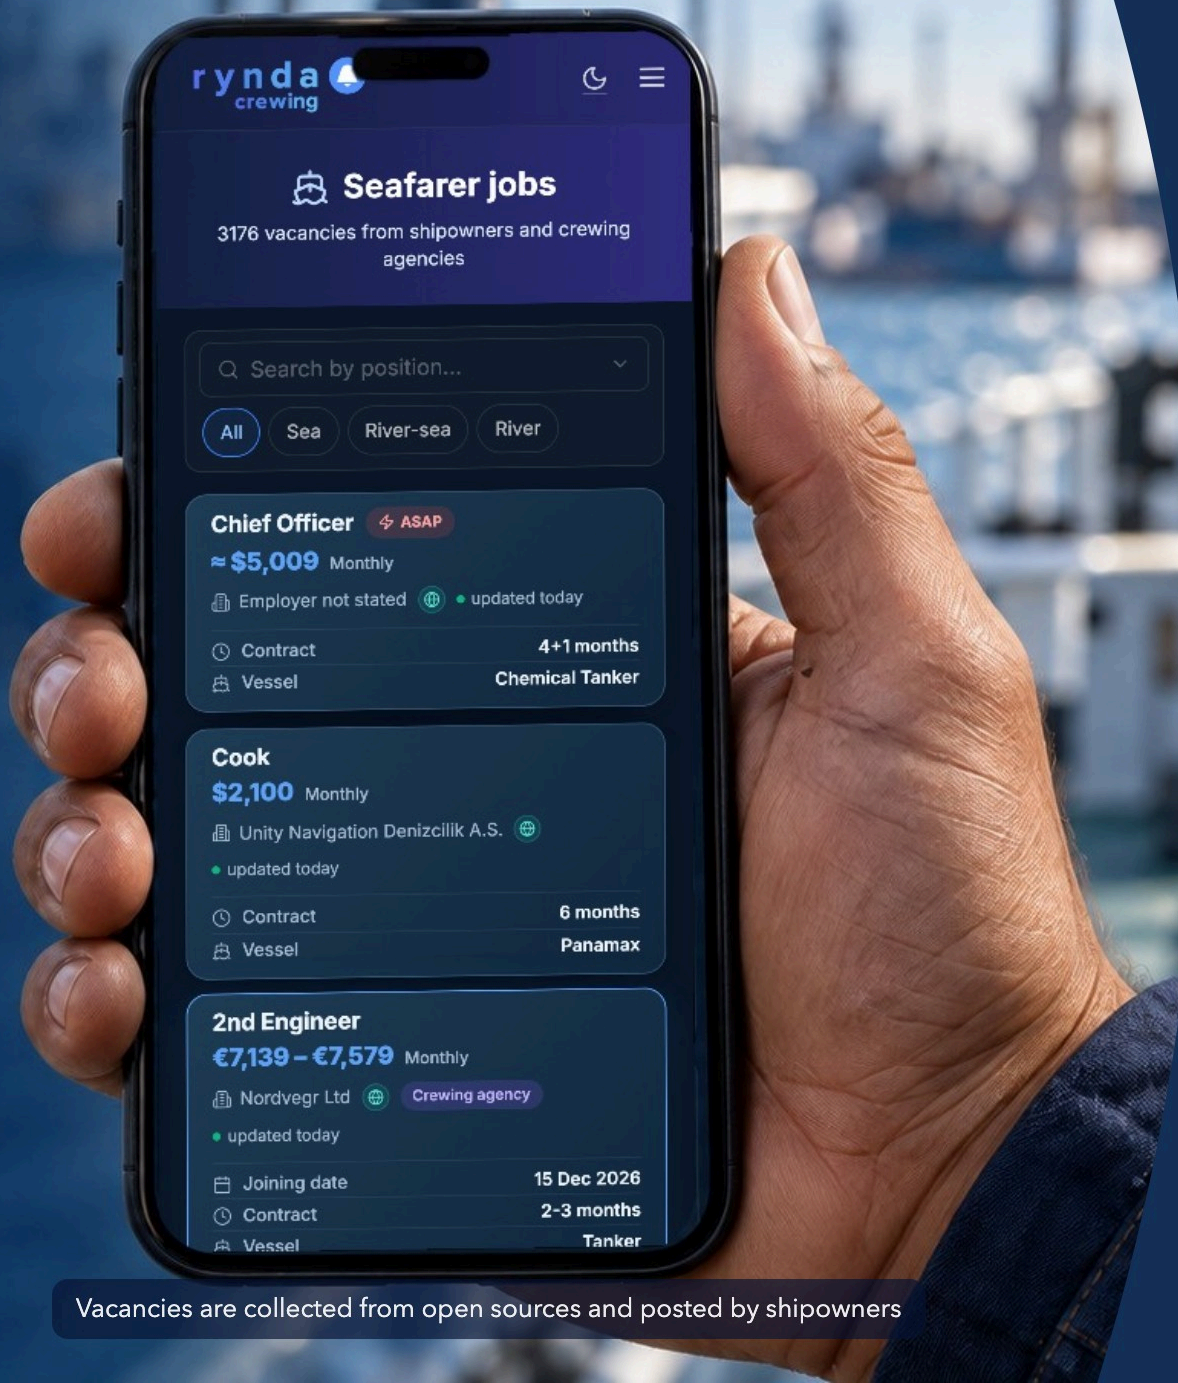

Cargo or vessel, ports, dates and terms go into a listing.

3

Published after moderation

We check the listing, publish it and let you know when a party is interested.

Cargo and tonnage search, AIS tracking, verified status and direct contacts.

RYNDA CREWING

Crew for companies, jobs for seafarers

For companies

Post a vacancy in a couple of minutes: the vessel fills in by IMO or name. Shortlist candidates on a board and track crew document expiry.

For seafarers

Upload a photo of your CV or documents, and AI fills in your profile. Jobs matching your terms arrive by email every Tuesday. Search and applying are free.

Documents and sea service

Reminders before a document expires. Sea service confirmed by the employer. Works as an app on your phone.

New verified companies: 30 days of ULTRA, no card required

Vacancies are collected from open sources and posted by shipowners

Where seafarers and employers meet

2,581

seafarers, +677 in a month

3,000+

open vacancies, 5,000+ new in a month

6,200+

employer contacts opened in a month

870+

seafarers active in a month

456

shipowners and agencies behind
the vacancies

393

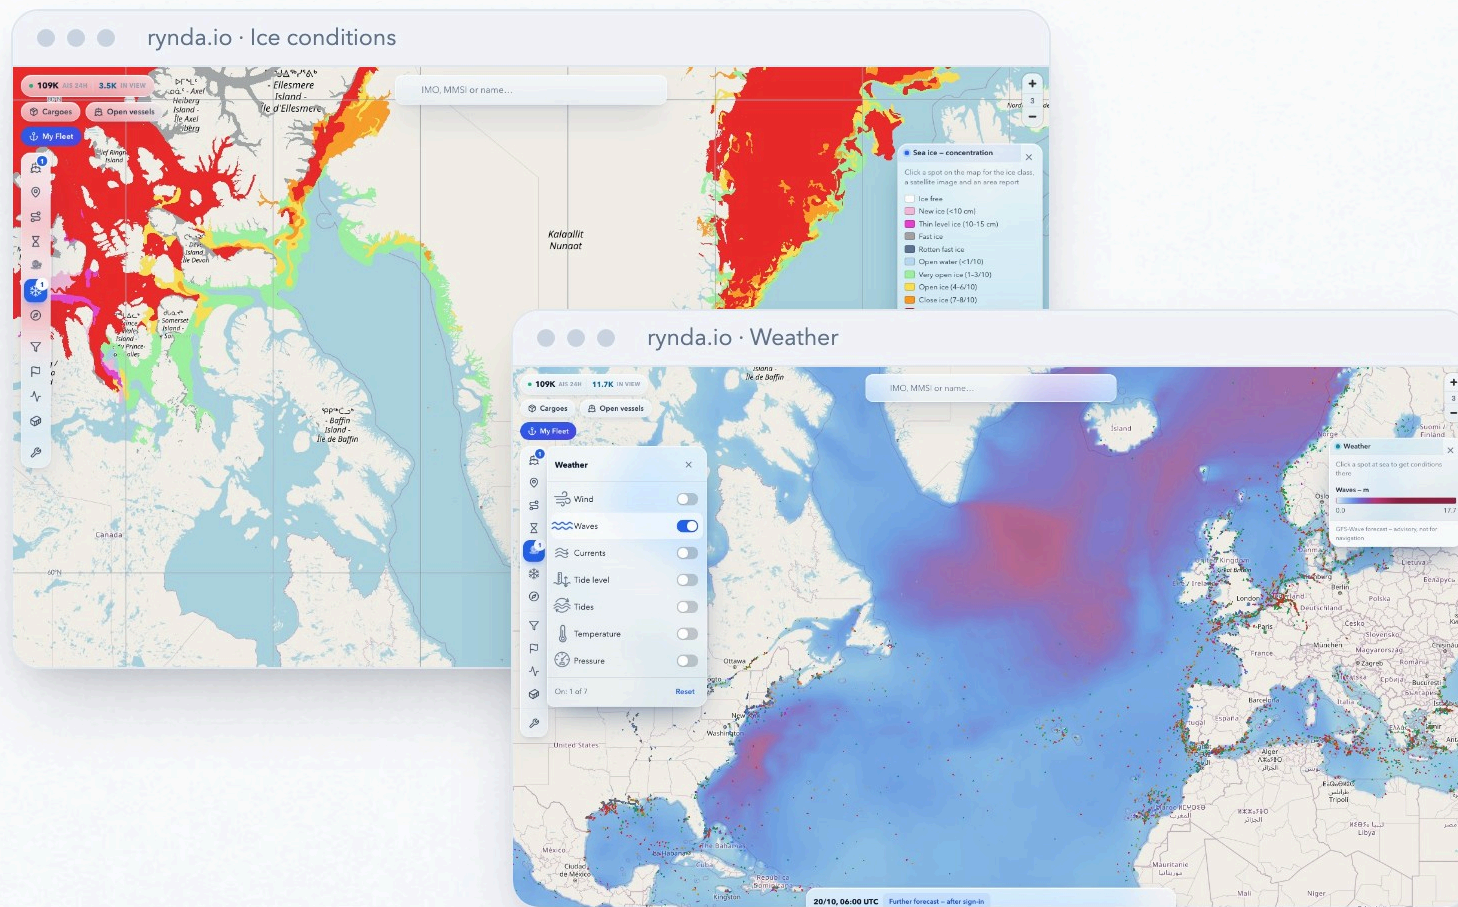

new CVs in a month

39,500+

vacancies collected since Jul 25,
2026

As of Oct 20, 2026; "in a month" means the last 30 days · reference data covers 231 ranks, 423 document types and 198 nationalities

Sailing directions, depths, ice and weather on one map

2.06M

aids-to-navigation objects

2.84M

depth soundings

98.5K

lights and lighthouses

109K+ sailing directions excerpts from 133 publications. Wind, waves, ice, currents and tides. ECA / SECA zones.

As of Sep 9, 2026. Reference data only; does not replace official charts and publications.

RYNDA GPT · LAUNCHING NOVEMBER 2026

Captain Storm (AI)

A maritime assistant that knows the platform data. Ask it like a colleague:

"Who owns this vessel, and is it clear of sanctions?"

"Work out the TCE for a 30,000 t bulker voyage"

"Which vessels are waiting at anchor off the port?"

"Go through the attached charter: laytime, demurrage, clauses"

170K+

vessels

15K+

ports

109K+

sailing directions excerpts

Speaks any language. Calculations are for reference; the master makes the call.

VOYAGE AND FLEET TOOLS

Voyage calculations on the platform

Voyage economics calculator

TCE, draught and cargo intake. Route, ECA / SECA zones, canals and bunkers.

Demurrage calculator

Laytime and demurrage calculation.

Tested on an operating fleet

PMS is in development and piloting. Calculators, NtM Manager and AIS are validated in operation before release.

April 2025 - November 2026

Cargo. Vessel. Crew. One platform.

Sea and river shipping in one place.
